

WITHDRAWING CONSENT FORM

Please refer to our Privacy Notice for a list of the data we legally have the right to keep under the EYFS. Please understand that you cannot withdraw consent to the data listed there, but you can withdraw your consent to the following at any time as it is now referred to as “Special Category Data”:

Sharing of Information with other settings

You will already have signed this permission and this will carry on after 25th May. However you now have the option to opt out of this should you wish to. However please be aware that sometimes our legal obligation to share information may over-ride you withdrawing your consent. An example of this could be a safeguarding referral.

I wish to opt out of sharing information with other settings

Photographs and Videos

We already have a policy on photographs and videos. However, you now have the option to opt out of this should you wish to. Because of the nature of a childminding setting, your child may be in photos that include other children. Photographs remain on Baby's Days until your child leaves the setting after which we can download them for you onto a memory card or memory stick. Once photographs are downloaded and in your possession, we are no longer responsible for them. We do not keep any photos of children once they have left our care.

I wish to opt out of the photographs and Videos policy

Messaging using Whatsapp

Part of our exchanging details with parents is reliant on being able to communicate with them, we do this in a variety of ways. One such means is use of Whatsapp. We will share information with you including photographs through this medium. Once a child has left the setting we will delete the stored communication with them. You have the option of opting out of this means of communication if you wish.

I wish to opt out of messaging through Whatsapp
